EVENTS 2013-2014

Dear Stakeholders

Greetings from Paavai

The secret of change is to focus all of your energy
not on fighting the old, but on building the new.

-Socrates.

In tune with the changing facets of change, technical education keeps reinventing and redefining its relevance and application over the years. It is a welcome sign to observe that the technology- driven Paavai Institutions [e-Governance campus] have explored alternate or innovative routes to facilitate the student community with knowledge beyond boundaries and skills beyond classrooms, as evidently seen through the highlights of 2013-2014 newsletter.

I am immensely delighted to communicate to our stakeholders that in Paavai every branch of engineering discipline is second to none in organizing knowledge-seeking and knowledge-sharing programs and research initiatives through the respective department association meetings.

The knowledge content of each campus program and the high-profile resource persons that they have invited from reputed institutions and universities have ascertained that both our staff and students stay ahead and updated in their pursuit of engineering know-how. In this regard, it is heartening to place on record that our campus connect partners, Microsoft,Infosys, Wipro and IIT Bombay have also played a commendable anchoring role in benefiting our faculty members and learners with a series of opportunities to innovate apps to address contemporary challenges and needs that arise anywhere in the world.

Paavai always believes in prioritizing the welfare of students and the events organized by the placement and training centre with regard to strengthening the employable skills of the prospective engineering graduates stand testimony to it. I congratulate the sincerity of the centre and admire the involvement of the students in getting well placed.

I take this opportunity to greatly acknowledge the launch of 'Astra' a campus connect programme for students of all caliber to showcase their creativity, histrionics, debating skills, aesthetics, fine arts, team dynamics, leadership and what not?. I am happy many have won laurels and recognition and many more have learnt the art of changing their arrows in their quiver to suit the target.

Equally, it is a matter of pride to share with you that Paavai has been providing a challenging platform for sports students to compete and shine at the zonal and national level in the field events and body building activities, for a sound body and a sound mind go hand in hand. I am confident that the personality building programs that were conducted in the academic year would have helped the learners develop a right attitude which is far more important than acquiring a right qualification at every stage of one's life.

I am sure that the learner-centered activities that have happened at Paavai to build a broad range of competencies and skills to synthesize new ideas and develop new processes would enable every student to serve the society, the institution and the nation in the most desirable way.

I acknowledge with utmost sincerity the parents and the society for the trust that they have placed in us and true to their expectation, I am sure that this institution would reach the pinnacle of excellence.

I heartily congratulate the Principals, HoDs, Staff and students for exemplifying the spirit of oneness in emerging as world-class engineers.

I wish you all success.
